Directors' Report for 1878.

The Board of Directors of the Mount Sinai Hospital submit herewith the report of the various committees, the Medical Staff and the Dispensary Department, for the inspection of its patrons and members. They show in detail the work done and expense incurred, and we trust will meet with the approval of all.

The report of the Executive Committee, to which is intrusted the supervision of the interior work of the Hospital, comprising, among many duties, the purchasing of all supplies, will show that great care and vigilance has been exercised. Some of its members visit the Institution continually, and in addition to the time given to the regular meetings, spend many hours in doing their utmost for the welfare of the sick confided to our charge.

A careful review of the Finance Committee report will show that the receipts from patrons and members have fallen off nearly \$2,000 during the past year. As it seems that now prosperity is returning to our country, it is hoped that none of our community, who are able to join the list of subscribers, will hesitate to enroll themselves as such, and thus add to the permanent income of an institution, which, without regard to creed or religion, extends an ever open hand to the poor sick. Proper care is taken that only those really deserving are received as gratuitous patients, but, nevertheless, those treated free amount to **98 per cent.** of the entire number admitted. These figures speak more eloquently than we can, in appealing for increased aid to the funds of the Hospital.

With great interest will the report of our House Medical Staff be read. The dry figures will hardly convey the amount of benefit accruing to the sufferers, nor the amount of care, anxiety and professional skill required to obtain such results. Total number of patients last year was 1,352, this year 1,437—an increase for the period under review of 85 cases. The number discharged cured were, respectively, 820 and 932, showing an increase of 102 cases cured, certainly a flattering result. We are happy to say that the adoption, early in 1877, of the practice in vogue in nearly all other hospitals, to have senior and junior physicians and surgeons, liable to do duty for two years, has worked so well. These gentlemen giving their time to attendance on the sick, receive no salary, and labor entirely and unselfishly for the benefit of our beloved Institution.

The Directors take special pleasure in calling the attention of the members to the invaluable services freely given by our attending physicians and surgeons. Always ready at the call of duty, they supervise with care the working of the House Staff, visiting the bedside of each patient, giving advice and help, based upon long years of experience.

The Dispensary, or Out Door Department, has done noble work

during the year. The detailed reports submitted will show what a Godsend the Mount Sinai Dispensary has become to the poor, who flock to it from all parts of our great city.

While looking back with satisfaction over all that has been accomplished in doing good, we are not forgetful that more can and must be done in the future to increase the usefulness of the Hospital.

The idea of a children's ward has long been a subject of discussion ; all agree that it would be a great boon to have such an exclusive ward, but the expense of making and furnishing have stood in the way. It was, however, determined last Spring, in view of having a place where children, and especially those committed to our care by the Orphan Asylum, would be by themselves under proper guardianship and could enjoy extra attention, to prepare a ward for them and we now have the pleasure to have it ready for your inspection.

The fourth ward on the female side, unoccupied until now, has, under the supervision of Architect Fernbach, been changed from a garret into a light, well ventilated and pleasant abode for sick children, and will very soon be dedicated to its special purpose. To meet the extra expense entailed, we propose to set aside the legacy left to the Hospital by the late Michael Reese, of San Francisco, and when received apply its income for this purpose.

The Laundry has been increased in its capacity, made necessary by the large demands of our patients. In the Fall our esteemed Superintendent, L. B. Simon, was taken from our midst, ending a career of steady usefulness, and dying in the Hospital, where his presence had so often soothed the last hours of many unfortunates. His work now devolves on Mrs. Simon as Matron, and Mr. Hadel as Superintendent, who attend carefully to their duties.

Respectfully submitted,

A. HALLGARTEN, PRESIDENT.

Report of Executive Committee.

To the President and Board of Directors of Mount Sinai Hospital.

GENTLEMEN : Again we are advised of the passing of another year, and we are grateful that the Mount Sinai Hospital has been enabled to relieve the distressing requirements of the sick and to spread comfort and consolation to many weak and weary sufferers.

Your Committee have met at least once in every week during the past year, and of one thousand eight hundred and eighty-one (1,881) applications for admission received, have admitted and treated without charge, one thousand three hundred and one, and referred to the Dispensary for treatment two hundred and forty-four, thus showing that of all charitable institutions of a kindred nature our Hospital for charity and benevolence stands second to none ; a fact of which we may well be proud, and we cannot but believe that the good name so deservedly earned by our Jewish charities will in future, as in the past, redound to the credit of our people and stimulate them still further to deeds of benevolence.

The number of patients who partly contributed to their own support was twenty-seven (27.) The number of applications refused was 309, for the reasons that under our rules for the admission of patients they could not be received.

The entire number of patients under treatment during the year was one thousand four hundred and thirty-seven, of which there were in the Hospital on December 1st, 1877, 109 ; there were discharged cured 932, improved 275, not improved 79, left before treatment 8.

The average daily number of patients was **116**, and the average time each was 29.4 days.

The number of deaths during the past year was 95, many having been admitted whose condition was such as would have made their cure a miracle. To these unavoidable admissions your attention was called in our last report, but as your Committee have not hearts of stone, they, in the cause of humanity, are obliged to give a wider scope to the prescribed rules and allow these very poor sick a bed in which to breathe their last.

The number of prescriptions used in the Hospital was 19,487 ; the number of patients treated in the Dispensary was 22,958, and to

these were issued 25,437 prescriptions free of charge, as many as 156 having been given out in one day to 126 applicants. To the Staff of this Department our thanks are here tendered, the work outlined above is evidence of the valuable services rendered by them.

We have made during the past year several important changes and improvements in our Wards and Laundry, such as the fitting up of a fourth ward for children, a room for such cases as require to be isolated, erecting shelving in all the wards in the place of bureaus, and enlarging the working capacity of the Laundry—this work necessitating an expense of about \$4,000.

It is with great satisfaction that we are able to state that the workings of the system of the Resident Staff, as put in operation a little over a year ago, is a success, and to Drs. Feldman, Meyer, Estes, A. H. Fridenberg and Ed. Fridenberg, our thanks are due for the interest and zeal they have manifested in the different departments under their charge. We also desire to acknowledge the valuable services of our Admitting Physician, Dr. David Froehlich.

Thanks are offered to our Medical Staff, who though gratuitously contributing their valuable time and services, are always ready to attend to the calls of our sick, and who have been faithful attendants at our Hospital.

We must also refer with satisfaction to the services rendered by Dr. Mary Putnam Jacobi, who still continues to exert her medical as well as motherly influence over the little ones who are so unfortunate as to require treatment within our walls.

We would here and with deep regret call your attention to the loss sustained by us in the death of our valuable Superintendent, Mr. Leopold B. Simon; no allusions to his great services are necessary, every one connected with the Hospital will bear testimony to the sterling qualities of his character and disposition, as well as to the great ability he always displayed.

Owing to her thorough knowledge of the workings of the Institution we have appointed Mrs. Simon as Matron, and together with the appointment of Mr. Theo. Hadel, as Superintendent, your Committee have no fear but that in the future the Hospital will be well taken care of and that the duties allotted to each of them will be faithfully and ably performed; these changes have been made at no increased expense.

To the Rev. Drs. Adler, Einhorn, Gottheil, Huebsch, Jacobs, F. De Sola Mendes and H. P. Mendes, our thanks are given for their frequent visits to our patients. In this connection we are called

upon to deplore the loss of one of their number, the Rev. S. M. Isaacs, who continued up to his last illness to visit the sick, and whose very presence brought comfort and consolation to the sufferers. He has gone to his reward, but the memory of his good deeds will never pass away.

We also extend to the proprietors of the *New Yorker Zeitung*, *Evening Express*, *Reformer* and *Jewish Times*, *Jewish Messenger* and *Hebrew Leader*, our thanks for the contribution of their journals during the past year.

To the Ladies' Auxiliary Society of Mount Sinai Hospital, the Ladies' Flower Mission, Mount Sinai Flower Mission, and the Young Ladies' Sewing Society, our most grateful thanks are due. May the Almighty spare them for many years to come, that they may continue to gladden the hearts of our sick ones with loving charity; from us who know the good they accomplish, no more earnest prayer can be offered.

We are pleased to state that of 91 little ones sent us by our sister charity, the Hebrew Orphan Asylum, 78 have been returned in good health, none died, and we have at this day 13 under treatment.

Report of the Finance Committee.

To the President and the Board of Directors :

GENTLEMEN :—THE FINANCE COMMITTEE beg leave to submit to you herewith their annual statement for the year ending November 30th, 1878.

During the period the receipts of the Hospital were as follows :

From Patrons and Members.....	\$23,997 50
“ Pay Patients.....	3,732 54
“ Interest.....	7,014 15
“ Legacies and Bequests.....	3,500 00
“ Perpetual Bed.....	2,500 00
“ Book of Life.....	152 00
“ Donations.....	1,529 09
“ Life Members.....	200 00
“ Collections of Old Bills.....	262 50
“ Sundries.....	109 08
	<hr/>
	\$42,996 86

Schedule “**A**” hereto annexed contains a detailed statement of the Support Account, for the same period and amounting to \$44,376 10

Schedule “**B**” contains a list of Legacies and Bequests ; schedule “**C**” and “**D**,” the Donations entered in the Book of Life, and those received from other sources ; shedules “**E**” and “**F**” are the Perpetual and Life-Bed Accounts.

Schedule “**G**,” the Hospital Building and Property Accounts.

Schedule “**H**,” the balance sheet of the Ledger, showing an increase and decrease of income and expenditures, and also the financial standing of the Hospital as compared with the previous year ; schedule “**I**,” contains a list of the Bonds and Mortgages held for the Sinking Fund, and schedule “**J**” a list of the Bonds and Mortgages (of the Phillips Estate), held jointly with three other societies.

In accordance with the resolution passed by your Honorable Board, we further annex the list of Legacies and Bequests of Perpetual and Life-Beds endowed to the Hospital.

The Treasurers’ accounts have been examined and found correct.

Our receipts during the year have been materially reduced ; we

received but \$1,000 from the City out of the Excise Fund, which is \$3,248 less than was given us the year before.

From our Patrons and Members \$1,980 less has been collected during the year.

It is the wish and aim of every officer of our Institution, that it be placed on a permanently self-sustaining basis ; we fear that our income from Patrons and Members may be still more reduced during the coming year, and this induces us to say that extraordinary efforts should be made to increase our revenue from this source ; we therefore respectfully submit our recommendation, that a committee of twenty-five gentlemen be appointed by our President, to aid us in increasing our receipts by adding new Patrons and Members.

We thankfully acknowledge the receipt of the various donations and legacies specified in the annexed lists.

Mount Sinai Hospital deserves the consideration of the Charitable, and we hope that in the future our noble Institution will be so aided by the Philanthropic, that its usefulness will be increased and its charities dispensed in a still greater measure than heretofore.

Respectfully submitted,

ISAAC BLUENHTAL,

Chairman.

Annual Report of the House-Staff, 1878.

To the President and Board of Directors of the Mount Sinai Hospital.

GENTLEMEN :—The members of the House-Staff take pleasure in laying before you their annual report.

In doing so they wish to express their thanks for the uniform courtesy shown them by your Honorable Board, and for the liberality displayed in response to our various requests, made in the interests of the Institution.

They deplore the sad loss sustained in the demise of the worthy Superintendent of the Hospital, Mr. L. B. Simon, whose well-known sympathy with and kindness towards the inmates and genial cordiality to the officers, had endeared him to all.

They have been ably and conscientiously seconded in their efforts by the assistants, Drs. Edward Fridenberg and William L. Estes.

Mr. Hadel, the new Superintendent, has invariably co-operated with the Staff in furthering the objects of our Hospital.

It has been the unpleasant duty of the Hospital authorities on many occasions to decline to receive cases of a chronic or incurable nature. The wisdom of such discrimination has been manifested in the increased usefulness of the Institution. For each case of chronic or incurable disease rejected the Hospital has been enabled to confer lasting benefits upon many, whose diseases, though of shorter duration, were acute and of a much more serious nature, and who would, in many cases, have succumbed at their own homes, surrounded, as they were, by all the disadvantages of poverty. It will be seen that the number of acute diseases, especially of fevers treated, far exceeds that of the preceding year. The average length of time each patient remained was 29.4 days ; whereas for each case of cancer it was 48 days, and for each of consumption 54 days. In the latter cases partial and temporary alleviation was all that could be effected, while in the former, with few exceptions, complete recovery was attained.

Our nurses deserve credit for the faithful manner in which they have performed their arduous, and in many respects, trying duties.

Respectfully,

A. H. FRIDENBERG, M.D.,

House Physician.

BENSON M. FELDMAN, M.D.,

House Surgeon.

SERVICE OF DR. E. C. SPITZKA.

To the Board of Directors of the Mount Sinai Hospital:

GENTLEMEN :—I herewith present a summary of the cases treated by myself, as one of the Surgeons of the Out-Door Department of the Mount Sinai Hospital, in accordance with the annual custom.

In presenting this Report I would state that (as will be seen below) the number of cases in the "Record" considerably exceeds the number of cases *treated*. The excess is to be accounted for by the number of patients who are discovered to be improper subjects for charity, or not to be suffering from surgical affections, only after they have been entered in the books. That this is not always discovered before they are entered is under the circumstances not the surgeon's fault obviously! Where the discovery was made in time the applicant's name has not been registered.

From December 23d, 1877, to December 1st, 1878, there were 145 days, on which your subscriber was due, of these 135 days he has been present. There were in all 767 patients treated, besides whom 71 applicants for treatment have been registered, who for various reasons were not treated, making the whole number registered 838.

The average attendance number of patients in the Surg'al department on my days has been $3\frac{1}{2}$. According to the nativity the patients range as follows :

United States,	230
Germany,	228
Ireland,	203
Russia,	107
England,	21
Austria,	31
Switzerland,	4

DEPARTMENT OF THE DISEASES OF WOMEN.

SERVICES OF PAUL F. MUNDE, M. D.

To the Board of Directors of Mt Sinai Hospital:

GENTLEMEN.—I beg to present a classified list of the diseases treated by me in the Department for the Diseases of Women since Dec. 1st, 1877. I would state that, as the majority of the cases suffered from more than one of the affections below enumerated, the condition giving rise to the greatest disturbance was in each instance chosen as the designation of the case.

Each case was entered but once on the book during the year. The total number of individual cases treated during the year was 475, being an increase of 73 over the preceding year.

SERVICES OF RUDOLF TAUSZKY, M. D.

To the Board^{of} Directors of the Mount Sinai Hospital:

GENTLEMEN:--I herewith transmit to you my annual report of the patients treated by me at the out-door department, for the diseases peculiar to women, in the institution under your charge, from December 1st, 1877, to December 1st, 1878, together with the names of the diseases, and their number, from which they were suffering.

The total number of patients thus treated by me, and entered upon the record of the dispensary but once a year, was 371.

Their affections were the following:

Anaemia, general and local.....	16	Fissura ani ..	6

The number of the patients and their diseases is not the same, since some of the patients are credited with two or more diseases at the same time. The increase of 132 patients treated by me during the year, (1877 there were 239 cases, during 1878, 371) over those attended the previous year, seems to prove that our management of the class under our care has been duly appreciated by our out-door poor.

All of which is respectfully submitted by

DR. RUDOLF TAUSZKY.
